#### Goals 2000-2001

The mission of the Community Learning Network is to deliver education and training to learners at convenient times and locations. The CLN designs new products, services and points of access for learners throughout the IUPUI service area. The strategic goals build upon last year's goals and are based upon recommendations stated in the campus Implementation document dated December 14, 1999.

The Community Learning Network identified twelve goals from the 32 implementation recommendations identified by the campus leadership. The Community Learning Network selects the following five goals:

#### Community Connections:

- 22. Increase outreach to area businesses to meet workforce needs.
- 26. Strengthen/increase the use of off campus learning sites.

#### Student Learning:

- 5. Increase student retention through improved advising and student support.

#### Responsibilities of Excellence:

- 18. Increase distributed learning courses and programs which enhance a sense of community.

#### Academic Programs:

- 11. Provide associate, baccalaureate and graduate degrees as well as certificate and postgraduate programs that enhance workforce skills and contribute to Indiana's economy.
